Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Fortune 500

Industry:
Automotive & Transport

About GreenRoad

GreenRoad helps businesses run safer, more efficient and profitable fleets that tread more lightly on the planet. GreenRoad was founded in 2004 to apply advanced mathematic modeling and cutting-edge technology to the problem of accurately predicting and intercepting risky driving.

Our driver and fleet performance management solution engages drivers directly for meaningful, lasting behavior change. At the same time, fleet tracking, mapping and reporting help fleets optimize their daily and strategic operations.
